ROADSIDE CABINETS FOR OPTIC FIBRE SUBSCRIBER CONNECTIONS

CAHORS offers a range of SMC composite enclosures for deploying optic fibre networks.

Main Features

The range of MAXIPOL optic fibre cabinets is specially designed for connecting subscribers as part of a passive optic fibre network. Placed in non-sense areas or low-density pockets within dense areas, they serve as a zone sharing point. These cabinets with different capacities can accommodate distribution equipment for operators and customers. We offer 4 models of cabinets:

- Size S capacity 14 U
- Size M capacity 20 U
- Size L capacity 26 U
- Size XL capacity 2 x 26 U

Benefits

- Accessories available by request
- Highly robust composite SMC material
- Excellent durability
- Very good heat insulation
- Resistant to corrosion
- Available with a base

Uses

- Infrastructures
- Operators
- Public initiative networks
