

# CLOSURES FOR A DRAW-IN BOXES

CAHORS offers traps and frames for closing and securing access to drawing rooms.

---

## Main Features

Closures made up of galvanised steel frames and ductile cast iron pads are designed for covering access chambers for dry networks. We offer two ranges:

- ECO range
- SECURE range with lock secured traps

Optional:

- Custom marking
- Special handling key and screw for protection against tampering
- Protective grid
- Handling tools

---

## Benefits

- Complies with EN 124
- Resistant to B125, C250 or D400
- Format L1 / L2 / L3
- Corner frame (mechanically welded and heat galvanized)

---

## Uses

- Infrastructures
- Operators
- Developers
- Public initiative networks
