

# SMC SATELLITE ANTENNAS

---

**SMC satellite antennas: TV programme reception with excellent image quality.**

---

## Main Features

The SMC satellite antenna can receive free-access or encrypted TV and radio programmes from one or more satellites with excellent image quality on multiple sockets in a home.

There are three types of antennas in multiple sizes.

- For receiving from a single 40 cm to 1.50 m satellite
- For receiving from multiple satellites with a single antenna (BISAT-BIG BISAT)
- For receiving from multiple satellites with a single motorised antenna (SMC120)

Discover [QUICKSAT](#), CAHORS application dedicated to satellites antennas installation.

## Benefits
