

COMPACT NETWORK CONNECTION CHAMBER FOR IN-LINE METER - OVALO

Compact connection chamber connecting subscribers to the drinking water distribution network. Integrates cut-out, metering and check valve functions.

Main characteristics

Made of composite materials, the Ovalo chamber is suitable for connection with DN15 (or 20 on request) inline meters. Perfectly adaptable to all networks and climate zones, the range offers:

- Several depths
- Complete insulation
- 4 stop mechanical resistance levels up to C250
- Fixed pipes for 15 110 mm meter (or 20 110 mm on request)
- Removable piping for DN15 from 110 to 170mm
- Tap downstream of meter on request

Advantages

- Light, can be handled by one person
- "Ready to connect" solution
- Several depths options to ensure perfect network compatibility
- Easy to install
- Integrated hydraulic equipment
- Delivered with PE100D disinfectant-resistant tubes
- Upstream and downstream swivel connections
- Adjustable and tilting cover

Uses

- Individual connection
- Private sector installation
- Public sector installation
