

# MODULAR POLYESTER ENCLOSURES (IP55) - MAXIPOL

---

MAXIPOL range of modular large volume GRP enclosures (glass-reinforced polyester) made of SMC (Sheet Moulding Compound) for outdoor use, IP55 rated.

---

## Main Features

Maxipol enclosures (IP55 & IK10 rated) are made of polyester (SMC) thermosetting composite material and are intended for outdoor use.

They are available in 12 different sizes and 2 different depths, with assembly options (modularity).

Several locking systems and mounting plates are available.

The range also includes several base frames and all of the accessories needed for assembly and mounting.

Enclosures customization: drill holes and machining.

Our polyester enclosures are available in RAL 7035, and other colors on request.

---

## Benefits

- IP55 / IK10 standards
  - High resistance to harsh weather conditions
  - 960°C self-extinguishing material
  - UL-approved range available
  - Many available configurations on request
- 

## Uses

- Public distribution of electrical energy
- Industry
- Tertiary sector
- Renewable energies

- Public lighting
- Temporary installations
- Telecommunications
