

ACCESSORIES FOR CABIN TRANSFORMERS

Accessories for cabin transformers: optimisation of device service life, fault detection, better energy efficiency.

Main characteristics

Optional extras:

- Pressure-relief valve
 - LV protection sleeves
 - Plant oil
 - Thermometer with or without electrical contact
 - Spark gap
 - Level indicator
 - Retention tank
 - Anti-vibration pads
 - Tap changer
 - Separable connectors
 - DGPT
 - LV covers
 - HV locking
-

Advantages

- Optimisation of device service life
 - Fault detection
 - Energy efficiency
-

Uses

- Urban environment
- Peri-urban environment
